Engineering leader with a global perspective

PROFILE

I am a senior software engineer with deep expertise in frontend architecture and full-stack development. I am passionate about building performant, user-centric applications with clean, maintainable codebases.

Outside of work, I enjoy exploring emerging technologies and building side projects. I'm always looking for new challenges and opportunities to grow.

SKILLS

STRENGTHS

- Leader
- Creative
- Listener
- Team worker
- Quick learner

EDUCATION

2009-2011 Master degree Industrial automation and system engineering
2006-2009 Electronic, electrotechnics, automatic engineering

WORK EXPERIENCE

Lead Frontend Engineer / Engineering Manager

Data Theorem | Since 2021/08 - 🇺🇸 Los Angeles

Leading a team of 5 engineers responsible for developing and maintaining the customer portal and public-facing web properties.

Own the full engineering workflow—managing Jira processes, sprint planning, and ticket prioritization in close collaboration with the Product team to align technical execution with business needs.

Drive frontend architecture decisions and implement best practices for a security-focused SaaS platform.

Manage team operations including performance reviews, career development conversations, and resource allocation.

Senior full stack engineer

VoiceFoundry | 2021/01 - 2021/07 🇺🇸 Sydney

Working in a team of 9 developers in Australia and Indonesia. We build and deploy applications using React / NodeJS on AWS.

Senior full stack engineer

Gorgias | 2020/07 - 2020/10 - 🇺🇸 Sydney

I currently work in a team of engineers between France, Australia and USA. My focus is mainly on the front-end part of the application, developing new features and improving the React application.

Senior full stack engineer

Athena | 2018/11 - 2020/06 - 🇺🇸 Sydney

Working in a team of 6 senior developers. As a full stack engineer I'm working on both back-end and front-end. I mainly work on new features of the React application, bug fixing and various improvements.

Chief Technology Officer (CTO)

Nod | 2017/08 - 2018/11 - 🇺🇸 Sydney

In charge of the software engineering team of Nod. My job is to manage the engineering team as well as developing the product and finding the best solutions to improve our product. I manage a team of 5 full stack engineers and 3 data scientists. As a CTO in a startup I spend most of my time writing code and mentoring our software engineers. I also do regular workshops to make sure everyone has the same skills.

Front-end lead engineer

Dexstr | 2016/01 - 2017/08 - 🇫🇷 Toulouse

Full stack engineer

Decasoft | 2014/10 - 2015/12 - 🇫🇷 Toulouse

Full stack engineer

Capgemini | 2011/04 - 2014/10 - 🇫🇷 Toulouse
